Troubleshooting Articles for Bare Metal Recovery Using 1 ...

Running Central Administration on more than one server in the farm. One of the most common issues I see when performing health checks is that SPCA is only installed on one server in the farm, most commonly the 'Index' or 'Application' server.

SharePoint Central Administration: High Availability, Load ...

To convert site collection to subsite: Want the reverse? move a site collection to a subsite in SharePoint 2007? Simple: Export the site collection using stsadm -o export, creates a blank subsite, and then import the exported site collection into sub-site using stsadm -o import.

Convert Subsite to Site Collection and ... - Sharepoint diary

A few weeks back I posted about how you can create custom timer jobs for use in the latest release of SharePoint to perform scheduled tasks. However, considering there have been almost 40 comments to the post in the last three weeks, I figured the post needed some clarification (duh, ya think?). The

Andrew Connell - Creating Custom SharePoint Timer Jobs

Note. We recommend that you use Microsoft PowerShell when performing command-line administrative tasks. The Stsadm command-line tool has been deprecated, but is included to support compatibility with previous product versions.
